EDUCATOR, STAKEHOLDER, AND YOUTH ENGAGEMENT

Toolkits and Guidebooks	Description
<u>Tools for Gap Analysis and Action Planning</u>	This guidebook includes tools and worksheets when planning a gap analysis and action plan. Process and strategic strategies are included to guide gap analysis planning with fillable worksheets.
<u>School Community Asset Mapping</u>	This shows an asset mapping school example and tool from an elementary school in Detroit, Michigan. It provides guiding questions when preparing for asset mapping for a STEM program and assessing community resources.
<u>UCLA Asset Mapping</u>	From the UCLA Center for Health Policy Research, this resource provides step-by-step guidance on how to plan an asset map with community boundaries and partners.
<u>Community Schools Needs Assessment example</u>	The Federation for Community Schools provides examples of different types of needs assessments and survey methods. It included sample student needs assessment surveys and sample teacher assessments.
<u>Toolkit for Stakeholder Asset Mapping</u>	The National Center on Advancing Person-Centered Practices and Systems provides a high-level overview of stakeholder asset mapping and how to create an asset map based on a proposed purpose or goal. Facilitator tools are included to help plan for conversations and activities within stakeholder asset mapping.
<u>Power Mapping and Analysis</u>	Power Mapping is a way to identify individuals or stakeholders who have power in communities or school networks. This blog post by Anita Tang includes the purpose of power mapping and how to do so with your organizations. It provides a step-by-step guide on power mapping exercises.
<u>Oregon Community Engagement Toolkit</u>	The Oregon Department of Education designed this toolkit for community engagement and deepening partnerships while addressing the challenges brought on from racism, COVID-19, and more.
<u>Creative Ways to Solicit Stakeholder Feedback</u>	Public Profit's guide focused on creative ways to solicit feedback within mission driven organizations. This guide includes kinesthetic, visual, and verbal methods to gather stakeholder feedback like gallery walks and photo response.
<u>Participatory Evaluation: Theories and Methods for Remote Work</u>	This guidebook identified multiple resources and innovations within participatory evaluation. It also offers organizations virtual adaptations for data collection, analysis, and action-taking.
